

# How to do a simple search on the eSAY database

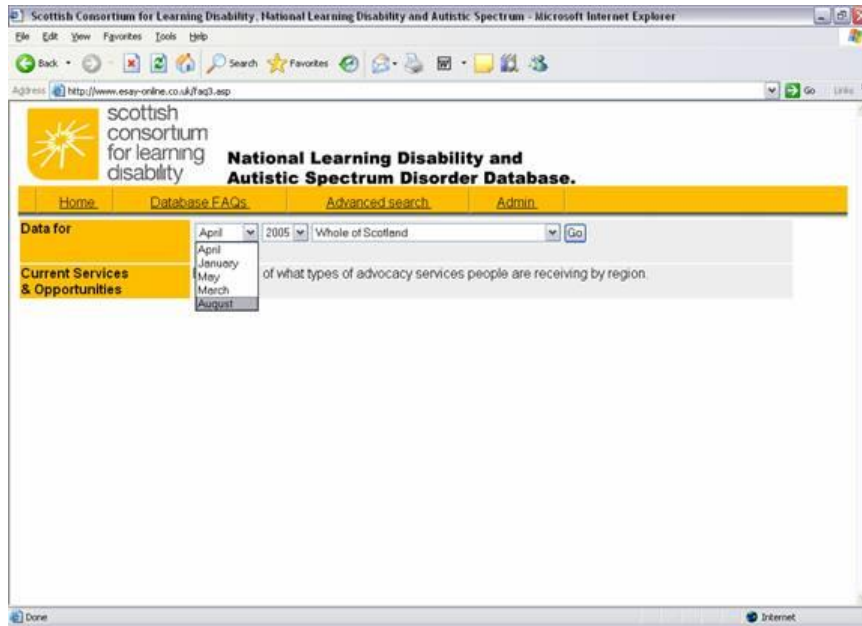

- To do a simple search, go to the Simple Search page.

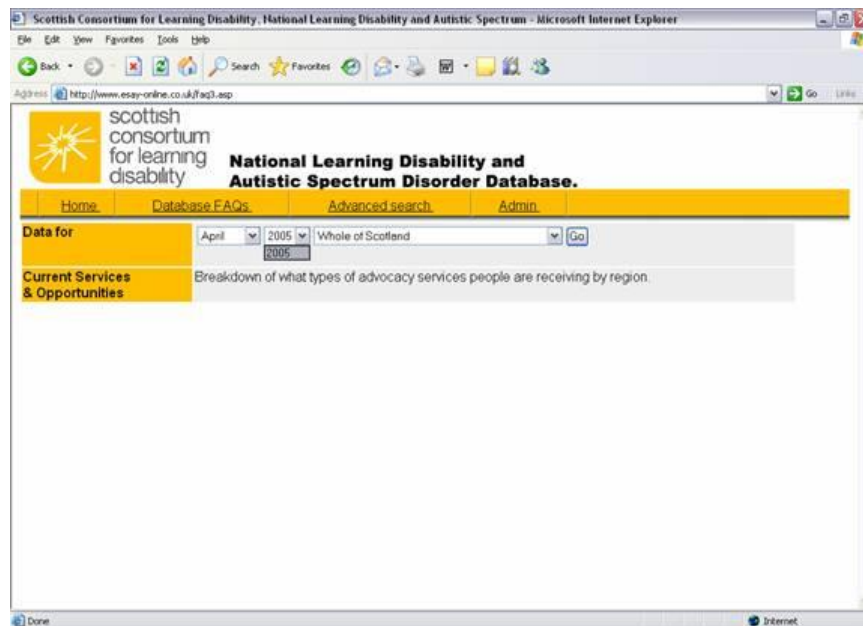

- Look at the list of questions that are on the page to find the one you would like the answer to. Click on that question. You will be taken to a page about that question.

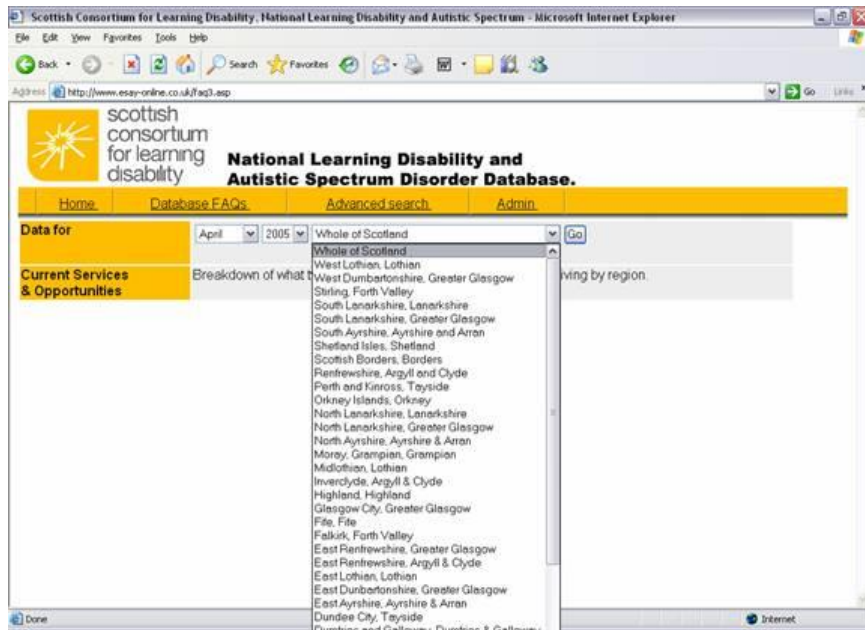

- You will be taken to a page that lets you select the date and area that you would like to search on.
- Select the month you want to search on.

- Select the year you want to search for.

- Select the area that you are interested in.

- Press the “Go” button.
- You will see the results of your search as a graph and as a table with numbers.
